Live Online CHILD-LED DOCUMENTATION

‘CONNECTING OBSERVATION, LEARNING
STORIES AND EMERGENT PLANNING’

A WHOLE SETTING APPROACH

May: 3.4.23
Spinning and rotation
- 'look it goes around -
see, it'll do it again!'

Documenting Progression in Learning

This session will enable educators to see the **individual child** and understand how to tune in to and document learning in a way that meaningfully demonstrates progression in learning. **The Learning Story technique** is demonstrated and samples provided. Educators will learn different techniques and strategies to include child voice and participation in the documentation process and how to connect this to **emergent planning**. Using **Living Wall Documentation** as a reflection tool is explored.

Part 1

Planning in the Moment

This session will connect the learning from session 1 to expand into **emergent curriculum planning**. The **long, medium and short term strategy** is explained. The format of a broad-based emergent plan in line with Aistear is demonstrated. Educators will learn how to blend child interests with **one flexible emergent plan that suits all ages**. The use of **Slow Pedagogy** as a central component of **continuous provision** is included.

Part 2

FREE

FREE Certificate of Participation

- FREE ‘Curriculum Statement’ in line with Aistear 2024 (costs €40 when purchasing from our website)
- Multiple **observation and planning tools and templates** provided

Tues 25th November ‘25 6.30–8.30pm
and
Tues 2nd December ‘25 6.30–8.30pm
