What if we could see more than what a child is doing... and truly see the child?

Introducing **Seeing Every Child**

An internationally accredited professional learning programme designed to put every child at the heart of assessment, pedagogy and curriculum.

MODULE 1
Authentic Assessment
through Emergent Practice
— *seeing the individual child.*

MODULE 2
Telling the Story
of Learning
— *the story-based approach.*

MODULE 3
The Agentic Educator
— *pedagogical techniques
& strategies.*

MODULE 4
Planning a Child-centred
Curriculum

Across four interconnected modules, educators develop the knowledge and confidence to **notice deeply**, **document meaningfully**, **respond intentionally** and **plan responsively**.

Because when we truly see each child — their voice, interests, strengths, wellbeing and learning — we can create experiences where every child is recognised, understood and empowered to thrive.
